

Product overview

KMS provides various laptops and tablets. Panasonic Toughbook (the most common customer request) and tablet are engineered to withstand drops, spills, dust and grime, and to perform in the harshest environment perfect for field work. Apple mac book air and Ipad have light weight, long battery life, and fast operating speed, which are excellent for office use or travel due to their metal body.

Product specifications

KMS laptop/tablet computers are connected to KMS-820 (Data acquisition unit) to control acquisition progress, data processing, data storage, and interpretation.

KMS Laptop/Tablet:

- Wi-Fi and long range wireless connection to data acquisition unit
- USB or LAN connection
- Remote control and monitor acquisition progress
- Toughbook and tablet are ruggedized
- Mac book air and Ipad are good for semi-rugged applications

NOTE: Laptop and tablet are sold separately in different specifications on demand. Please visit www.KMSTechnologies.com for more details.
