

## Product overview

KMS provides rugged laptops. Panasonic Toughbook (the most common customer request) and tablet are engineered to withstand drops, spills, dust and grime, and to perform in the harshest environment perfect for field work. Rugged laptops are light weight, long battery life, and fast operating speed.

## Product specifications

KMS laptop/tablet computers are connected to KMS-820 (Data acquisition unit) to control acquisition progress, data processing, data storage, and interpretation. We usually tailor it to customer requirements.

### KMS Rugged Laptop:

- Panasonic Toughbook CF-31 series or later
