

1<sup>st</sup> October, 2018

Dear Dr. Kurt-Martin Strack,  
President of KMS Technologies

I would like to express my sincere gratitude to you and KMS Technologies team for kind helps and supports during my MSc study in Department of Technology Khon Kaen University. I appreciate for the one-year funding scholarship during my research and even for opportunities working with KMS technologies' staffs. Furthermore, I appreciate personally to you and your wife for providing me place and meal when I stayed in Khon Kaen and Pattaya, Thailand to complete my research.

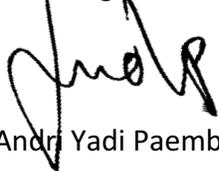

I am so grateful for the chance to visit your office in Houston Texas, and providing me everything that I need during the training and even for accompanying me during my thesis writing. I am also so lucky to join the conference in Indonesia on 2017, and Denmark on 2018 with funding support from KMS Technologies. I realized that I would not be able to have such the big chance without you and team.

I also appreciate for the opportunity to involve in the KMS training project in Malaysia. I am so grateful to have the such opportunities, and I got a lot of experiences and knowledge during the training. I will never forget that times, and if KMS is still need me to involve in other activities, I will be ready.

I am now working as a lecture in Indonesia, Institute Technology of Sumatera. In the future, I hope to have the research with KMS and may be a part of developing technologies, especially in Electromagnetics methods.

From the bottom of my heart, I am thankful to KMS technologies and Prof. Kurt-Martin Strack, who played significant role in my personal development. I wish a lifelong continuing keenness and support. I would like to apologize if I have any mistake during working with KMS Technologies.

Best reagards

Andri Yadi Paembonan
